

**CEMETERY TRUSTEE MEETING  
NOVEMBER 10, 2009**

**PRESENT: Don Burke, Janet Brown**

**GUEST: Judy Rogers, Carl Knapp**

**Meeting called to order @5:05pm.**

The September minutes were read and accepted except change Dow Philbrick to Dow Peaslee Cemetery.

There was no meeting in October.

Carl Knapp spoke to use about the ongoing serious problem at Oil Mill Cemetery.

The problem was created in 1970 when the road was raised and made wider and at that time old stone walls and granite walls and steps were taken away the road just a few feet away from road. The large culvert put in at that time was not working as it was full of sand. Carl and the Highway Department have cleaned out large culverts, put in catch basins and he will put in another culvert and rock erosion stone to slow water coming from driveway to house on hill behind cemetery.

Carl hopes to move that section of the road over away from cemetery in the spring of 2010.

When this road is done, we will replace old granite wall, steps and install large cement base to hold the land and Andy Spielberger can put granite wall back.

We also talked about the plowing of snow on East Street. The fence at Center Square is very fragile. Carl said it is very hard to plow areas by the cemetery.

Don Burke planted 38 lilac trees at many of the cemeteries. Great job Don, thank you.

Cutting Blade has completed fall cleanup.

Don met with CIP Committee. Future projects in 2010 \$50,000.00. 2011 Gates East Weare Johnson Gates 2012 \$16,000.00. Gates 14,600.00 2013 ran fences complete wire fence at Center Square. There are estimates of jobs.

We thanked Carl for meeting with us, we appreciated it.

Meeting adjourned at 5:55p.m.

Respectfully submitted,

Janet Brown  
Secretary
